

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Tuesday - 21 December 19 71

25X1 1. [ ] Met with Mr. Ralph Preston, House Appropriations Committee staff, and updated the briefing given him last week on the current situation in Laos. Mr. Preston told me that he does not plan to call Chairman Mahon to alert him on this matter since the Chairman will be returning to the city early this week. I also told Mr. Preston how sorry we all are to hear about the death of his sister, Mrs. Margaret P. Spurrier, who was buried on Monday. As a result of the family situation, Mr. Preston will be alone in the office intermittently during the next week or so.

25X1 2. [ ] Met with Mr. Frank Slatinshek, Assistant Chief Counsel, House Armed Services Committee, and updated the information given him on Laos by Mr. Maury and myself last week. I also gave Mr. Slatinshek a copy of the Office of Personnel letter of 14 December to [ ] of Detroit, Michigan. This case was an employment application that Representative Nedzi (D., Mich.) has asked him to check on. In connection with other matters pending in his office, Mr. Slatinshek asked if I would check the status of the two ships recently seized by the Cubans, whether they were involved in Agency or other intelligence operations; whether American helicopters are being utilized to transport troops into Cambodia, Laos and Thailand; and to ascertain whether there is duplication of effort between the Agency and DIA [ ]. He also suggested that since Mr. Nedzi would be available this afternoon that I brief him at that time on Laos and discuss the matter of the press reports of Mr. Nedzi's statements concerning CIA and intelligence community budget.

25X1A After checking with Messrs. George Carver, SAVA, [ ]  
25X1A FE/ [ ] WH Division, [ ] SA/DDP, and  
25X1A [ ] I met with Mr. Slatinshek. I explained the  
25X1A [ ] and the fact that there never has  
25X1B been any conflict between them and the Agency nor is there duplication of effort; I satisfied the question that the two ships captured by the Cubans were not involved, as far as we know, in Agency or intelligence operations and gave him a good background on prior use of these vessels; and explained the "Agency's" use of aircraft for troops in Thailand and Laos. Mr. Slatinshek was most appreciative.

Mr. Slatinshek told me that he had talked to Chairman Hebert and filled him in in cryptic fashion on the current situation in Laos. Since Mr. Nedzi was not available during the afternoon, I am to check with Mr. Slatinshek in the morning to see when we can meet with Mr. Nedzi.
